Certificate of Analysis and Data Sheet

Recombinant Human Serpin A1

Product Catalog # 230-00209

Synonyms

Alpha-1-antitrypsin, Alpha-1 protease inhibitor, Alpha-1 -antiproteinase, Serpin A1.

Source

- Escherichia coli derived.
- Protein Accession #. NP 000286 (Glu25-Lys418).

Predicted Molecular Mass

 $\sim 47 \text{ kDa}$

Purity

>95%, determined by SDS-PAGE under reducing conditions and visualized by Commassie blue staining (See the image above).

Formulation

Lyophilized from a 0.2 µm filtered solution in PBS (pH 7.4) containing 1% sucrose. Protein concentration prior to lyophilization was 139 µg/mL.

Reconstitution

Briefly spin the vial prior to opening and bring the contents to the bottom. It is recommended to reconstitute at $150 \mu g/mL$ with sterile deionized water.

Stability & Storage

- Upon arrival, the lyophilized products may be stored for 2 weeks at 2 to 8 °C. For long term storage, it is recommended to be stored desiccated below -20 °C in a manual defrost freezer.
- Following reconstitution, the protein may be stored for 2 weeks at 2 to 8 °C. For long term storage, it is recommended to add a carrier protein (0.1% HSA or BSA) and store at -20 °C or -80 °C in aliquots. *Avoid repeated freeze-thaw cycles.
