

• **Rabbit Anti-NGAL/Lipocalin 2 Polyclonal Antibody**

Primary Antibodies

**Background:**

Lipocalin 2 is a member of the lipocalin family which encompass more than 25 members (including proteins like retinol binding protein, a1 microglobulin, b lactoglobulin, apolipoprotein D and odorant binding protein). The members of the lipocalin family are characterized by their ability to bind small lipophilic substances in their hydrophobic core, and thereby serve as transporters of substances.

**Source/Purification:**

KLH conjugated synthetic peptide derived from human Lipocalin (151-198aa). Was purified by Protein A and peptide affinity chromatography.

**Storage:** Prepared as lyophilized powder or liquid and shipped on ice. Store at -20°C for one year.
