Rat monoclonal anti mouse Cardiotrophin-1

ORDERING INFORMATION

Catalog Number:	mAP-0155
Size:	100 µg
Storage:	< -20° C
Immunogen:	Mouse recombinant protein of Cardiotrophin-1
Ig Type:	Rat IgG1
Clone	RM0155-1J24
Applications:	WB

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a rat immunized with mouse **recombinant protein of Cardiotrophin-1**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein A/G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 200 µl sterile PBS (final concentration 500µg/ml). Reconstituted antibody can be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody detects mouse Cardiotrophin-1 in Western blotting. It also cross reacts weakly with human Cardiotrophin-1.

Application(s)

1. Western blotting	Yes	(1:500-1000)
