Mouse anti-human CCL-19/MIP-3 β

ORDERING INFORMATION

Catalog No:	hAP-0143
Size:	100 μ g
Storage:	< -20° C
Immunogen:	Human recombinant CCL-19
Ig Type:	mouse IgG2
Clone:	MM0143-11B4
Applications:	WB and IHC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with **human recombinant protein of CCL-19 (also called also known as MIP-3 β)**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 μ m filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 200 μ l sterile PBS and the final concentration is 500 μ g/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody was selected for its ability to detect human **CCL-19** protein.

Applications:

- | | | | |
|----|--------------|-----|--------------|
| 1. | WB | Yes | (1:500-1000) |
| 2. | IHC (frozen) | Yes | |

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only
