Mouse anti-human Granulocyte colony stimulating factor Receptor (G-CSF-R)

ORDERING INFORMATION

Catalog No:	hAP-0306
Size:	100 µg
Storage:	< -20° C
Immunogen:	Human recombinant G-CSFR EC domain
Ig Type:	mouse IgG1
Clone:	MM0306-8F19
Applications:	WB and FC

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with **human recombinant protein of G-CSF-R extracellular domain (also called CD114)**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 200 µl sterile PBS and the final concentration is 500µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody was selected for its ability to detect human G-CSFR.

Applications:

1.	WB	Yes	(1:500-1000)
2.	FC	Yes	(1:50-100)

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only
