Mouse anti-human Glial cell line-derived neurotrophic factor receptor $\alpha 3$ (GDNF-R $\alpha 3$)

ORDERING INFORMATION

Catalog No:	hAP-0310
Size:	100 μg
Storage:	< -20° C
Immunogen:	Human recombinant GDNF-R$\alpha 3$
Ig Type:	mouse IgG1
Clone:	MM0310-2P25
Applications:	WB

Preparation: This antibody was produced from a hybridoma (mouse myeloma fused with spleen cells from a mouse immunized with **human recombinant protein of GDNF-R $\alpha 3$**).

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 μ m filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 200 μ l sterile PBS and the final concentration is 500 μ g/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody was selected for its ability to detect human GDNF-R $\alpha 3$.

Applications:

1.	WB	Yes	(1:500-1000)
-----------	-----------	------------	---------------------

Final dilutions should be optimized by the end users and the dilutions provided in the data sheet are for reference only
